PLEASE READ THE FOLLOWING DOCUMENT BEFORE CONNECTING OR OPERATING ANY INDUSTRIAL FANS SUPPLIED BY ABG:

RISK ASSESSMENT INDUSTRIAL FANS

- A circuit breaker for earth leakage should be used with the fan to ensure user safety.
- The supplier / hirer of this equipment, have a duty of care to ensure that at all times the fan is in safe working order.
- The user / hirer of this product, have a duty of care to ensure at all times the fan is operated safely.
- Check all leads for defects, cuts, loose wires etc. before use.
- The power cable between the fan and power source should be used without stretching or tension on the cord.
- The fan operates on 240V AC, and should only be accessed internally by a qualified electrician.
- Care should be taken when lifting the fan, as the weight may be over 20kg.
- The fan should not be used in wet or damp conditions.
- The use of extension cords and/ or double adaptors is discouraged. If an extension cord is necessary it should be as short as possible.
- The power must be disconnected before moving the fan and should not be moved while operating.
